How to Be a (More) Pastoral Parish in the Modern World

Many new terms are being used in parish life today, such as synodality, accompaniment, discernment, and even pastoral theology itself, to name a few. This presentation will help you define, decode, and learn how to enact the new vocabulary being used today in parish ministry. We'll do this in plain English—and we'll send you home with practical tools to help you share it with your colleagues at your own parish.
